

NCC modified articles of Compliance Approval Regulations on Controlled Telecommunications Radio-Frequency Devices

Taiwan National Communications Commission (NCC) issued a formal document on Jan 10 2009 to modify article 5, 8, 15, 16 and 18 of Compliance Approval Regulations on Controlled Telecommunications Radio-Frequency Devices.

1. Relax the restriction and allow individual, incorporate or non-incorporate organizations to import up to 10 sets of Low-power Radio-frequency Device for “private use”. (Article 5)
2. In accordance with the government’s energy saving and carbon reduction policy, NCC modified the amount of type approval compact disk to one piece. (Article 8)
3. Simplify steps of type approval label authorization. (Article 15)
4. The CTRFD that needs radio license should printed consumer alert on the device's package, user manual, and instruction. (Article 16)
5. The holder of type approval certificate or DoC certificate can apply for certificate renewal in case of modification in the content of the certificate. (Article 18)
