

China modifies the format of Radio Transmission Equipment Type Approval Code

In order to accord with the English abbreviation of Ministry of Industry and Information Technology (MIIT) of the People's Republic of China, "CMIIT" shown in the Radio Transmission Equipment Type Approval Code has been modified to "CMIIT". (Modified code format as below)

The issued "Radio Transmission Equipment Type Approval Certificate" and its type approval code corresponding to original type approval code format are still valid during their specified term.
