

## Bureau Veritas ADT Certification Center accredited as NCC RCB to launch NCC Certification Service

Bureau Veritas CPS Taoyuan Branch Certification Center (formerly ADT Certification Center) obtained Regulatory Certification Body (RCB) authorized by Taiwan Accreditation Foundation (TAF) and National Communications Commission (NCC) to issue Taiwan Low-Power Radio-Frequency Device (LPD) certificate and Telecommunication Terminal Equipment (TTE) certificates. Thus, the Certification Center is pleased to announce that we are qualified to issue NCC certificate, including LPD, Public Switched Telephone Network (PSTN), and Public Land Mobile Network (PLMN) from Feb. 13, 2009.

Bureau Veritas CPS Taoyuan Branch Certification Center service scope:

### 1. 9kHz to 300GHz Low-Power Radio-Frequency Device (LPD)

WLAN products (IEEE 802.11a/b/g/n), UNII, Bluetooth, RFID, ZigBee, wireless keyboard, wireless keyboard mouse, wireless earphones and microphone, walkie-talkie, wireless remote control toy, remote controller of various types of radio, wireless security device, etc.

### 2. Public Switched Telephone Network (PSTN)

Telephone set, including VOIP phone, Automatic alarming equipment, Telephone answering machine, Fax machine, Remote control equipment, Cordless phone, Key telephone system (KTS) equipment, Data equipment, including ADSL terminal equipment and POTS splitter, Caller ID terminal equipment, 2.4GHz radio-frequency telecommunications terminal equipment, etc.

### 3. Public Land Mobile Network (PLMN)

GSM cellular phone and mobile equipment, DCS1800 cellular phone and mobile equipment, the third generation mobile telecommunication terminal equipment, and Wireless Broadband Access (WBA) station equipment, etc.
