

BV ADT Keeps Improving WiMAX Certification Testing Service: Several Milestones have been Created up to Present

A D T

Since WiMAX Forum announced that Bureau Veritas ADT is accredited for the first WiMAX Forum Designated Certification Laboratory (WFDCL) in Taiwan in 2007, Bureau Veritas ADT has kept improving the service quality and technical capabilities. Up to now, several milestones have been accomplished.

In the filed of WiMAX Forum Certification Testing, Bureau Veritas ADT possesses the most completed qualifications. Except for being the WFDCL, we are also continuously accredited for WiMAX Forum Designated Validation Laboratory (WFDVL) and WiMAX Certification Body (WCB) in 2008.

With rich experiences and WiMAX Forum qualifications, Bureau Veritas ADT has been assisting many customers in finishing WiMAX Forum Certification. Firstly, we supported and sponsored the largest Plugfest in the history of the WiMAX Forum in October 2007. Secondly, Bureau Veritas ADT has completed the first 2.5GHz Certificate in Asia and the first 3.5GHz Certificate in the world in 2008. Thirdly, in March 2009, we completed the first WiMAX RPT in the world. Furthermore, we completed the first Notebook integrating WiMAX function Certificate in the world in June 2009. So many achievements reveal that Bureau Veritas ADT can always provide customers the latest WiMAX Forum Certification technology and services.

In addition to the achievements of WiMAX Forum Certification Testing, Bureau Veritas ADT is also excellent in other WiMAX relevant testing. We are accredited for the first NCC WiMAX Testing and Certification service from 2007 and issued the first NCC WiMAX Certificate in early 2008 in Taiwan. Besides, we have a real experience and have completed 14 official M-Taiwan Certifications till July 2009.

Until now, according to the statistics, we have supported more than 160 WiMAX product selling in the world. There are now 20 WiMAX Forum official Certifications and 8 notebooks, which is the total amount of WiMAX Forum certificated Notebook, embedding with WiMAX function were certified by Bureau Veritas ADT around the world up to now.

Since the WiMAX operators have been increasing, the demand of WiMAX Forum Certification and International approval must be increasing as well. The vice president of Bureau Veritas ADT Mobile Product Certification Center, Tim Hong, indicated: "With the abundant achievements and experiences, Bureau Veritas ADT can assist WiMAX product designers and manufacturers in solving the problems of Certification and Testing and make their product time to market.
