

Essential Reminder: ANATEL new SAR requirement will be in force on Dec 16th 2009 in Brazil

A D T

It is important to remember that from **Dec 16th 2009**, the new Resolution 533 (new SAR resolution) will become mandatory as established by ANATEL.

This resolution is applicable for all the equipments that are in the following situations:

- Portable equipments;
- Equipments that operate in the medium output power over 20mW, measured in a time (average) of 6 minutes;
- Equipments that operate with frequencies between 300MHz and 6 GHz;
- Equipments that work near the human body, distance less than 20 cm.

For the equipments that are in the situations described above, ANATEL will not homologate them without the tests considering the new SAR resolution (Res. 533) from Dec 16th 2009.

At this moment, ANATEL decided that laptops / notebooks will not have to comply with Res. 533. However, ANATEL and INMETRO are working together to create rules for laptops. They continue to say that in the near future, these computers will need ANATEL approval.

Bureau Veritas ADT • service@adt.com.tw • <http://www.adt.com.tw/>

Bureau Veritas ADT has acquired the excellent reputation at the field of testing and certification services since the foundation in 1988. In order to remain competitive, we keep developing new services that cover EMC, Safety, RF, Telecom, DTV, Wi-Fi, WiWAX, NCC Certification testing, EuP, etc. Our aim is providing the comprehensive services to our customers, which we call "One-Stop Service".
