

Essential Reminder: WiMAX Forum formal announced 2.3GHz, 10/5MHz, TDD profile certification testing

On 17 Feb 2010, WiMAX Forum Certification Working Group (CWG) has informed all members that it has begun certification testing for profile M2300T-01 (2.3GHz, 10/5MHz, TDD), also called Profile 1B or MP02. Bureau Veritas ADT WFDCL lab is now authorized to offer testing services for this profile.

Bureau Veritas ADT was equipped all **WiMAX 2.3GHz, 5/10MHz, TDD test equipments and test beds** for this new profile certification testing.

Bureau Veritas ADT WiMAX key Milestone

| | |
|------------------|--|
| 2004 | First Lab in Taiwan joining WiMAX Forum and Taiwan Broadband Wireless Communication Alliance |
| 2005 | The pioneer lab in Taiwan with capability to perform WiMAX regulatory test |
| Aug. 2007 | Accredited for the first WiMAX Forum Designated Certification Laboratory (WFDCL) in Taiwan |
| Mar. 2008 | Providing fixed WiMAX Forum certification testing service (3.5GHz TDD mode) |
| May 2008 | Providing mobile WiMAX Forum certification testing service (3A 2.5GHz) |
| May 2008 | Accredited for the WiMAX Certification Body (WCB) |
| July 2008 | Completing 1st WiMAX Forum 2.5GHz Certification outside the lead lab |
| Sep. 2008 | Accredited for the WiMAX Forum Designated Validation Laboratory (WFDVL) |
| Jan. 2009 | Completing 1st official 3.5GHz WiMAX Forum Certification |
| Mar. 2009 | Completing 1 st official WiMAX Forum RPT Certification Testing around the world |
| June 2009 | Completing 1 st Official WiMAX Forum Notebook Certification Testing around the world |
| July 2009 | Completing 1 st Official WiMAX Forum Notebook Certification Testing in Taiwan |
| Oct. 2009 | Accredited for the RCT test case Validation qualification in WFDVL scope |
| Dec. 2009 | Completing 1 st WiMAX Forum Operator IOT & Conformance test case certification in the world |
| Feb. 2010 | Offering M2300T-02 (2.3GHz, 5/10MHz, TDD) profile certification testing services |
