

## Essential Reminder: UAE and CCC new Announcement

### UAE TRA requests each manufacturer to register its Brand when applying for Type Approval

As per Telecommunications Regulatory Authority (TRA) new regulation in UAE (United Arab Emirates), each manufacturer needs to get their Brand registered before any product approvals. This is applicable for all future UAE applications starting from 10th March, 2010.

This is a Single time registration which is valid for FIVE years, for all the products being approved for the same manufacturer.

This requirement is a voluntary requirement previously, but now become mandatory.

If you need our assistance to help you register your brand with TRA, please do not hesitate to contact us as soon as possible.

### Electronic documents will not be accepted when applying for CCC certification

CQC notified that from now on, all the applications, agreements and Power of Attorneys should be the **original documents**. It will not issue the application if the documents are photocopied, scanned or with Electronic seal / signature.

Foreign companies need to submit the original document with signature, while domestic companies must submit original document with Seal. Signature is not accepted.

\* Domestic Company: Company from China, Macau, Hong Kong, Taiwan
