

Bureau Veritas ADT's Hsinchu New Lab put into operation

A D T

Accredited by TAF (Taiwan Accreditation Foundation) and FCC (Federal Communications Commission) these days, Bureau Veritas ADT's Hsinchu new lab is put into service. Another accreditation is expected to be acquired from VCCI Council sooner to strengthen its capabilities.

Since the foundation of Hsinchu lab in 1998, Bureau Veritas ADT has served the local clients for more than 10 years. On account of growing demands from Hsinchu local electronics industry that has expended progressively over the past years, we planned to establish another testing base last year. Then, the building was completed this January as well as the installation of equipments. After accredited by authorities, we are pleased to announce that the new lab is put into service. Per a free trial taking place last month, we got favorable comments from clients on the new facilities. On March 17, we had an official opening ceremony to announce the operation of the lab.

Exterior of the lab

10m chamber

966 chamber

Facilities

There ate few 10m chambers in Hsinchu. To save client's time on traveling to Taipei, we included a 10m chamber at the beginning of the planning. The new lab have the following facilities now:

- (1) 10m chamber X 1
- (2) 966 chamber X 2
- (3) Conducted test room X 1
- (4) Oven X 1
- (5) EMS test room X 1 (available soon)
- (6) ESD test room X 1 (available soon)

We invite you to visit the lab and to test your products there!
