

## Bureau Veritas ADT is accredited by TAF and now can provide Photovoltaic Inverter testing and certification services

A D T

It is pleased to announce that Bureau Veritas ADT is accredited by TAF in April as a qualified Photovoltaic Inverter (PV Inverter) test lab. We are now ready to provide test and certification services to local partners.

Taiwan manufacturers are on the cutting edge among the world in developing the solar energy related applications. In order to provide our global partners globalization services and extend our services scope, Bureau Veritas ADT has been not only integrated Bureau Veritas Group's rich experience in relevant testing and certification field, but also deployed PV Inverter service scope and simplified the application process from product testing to certificate obtaining.

Bureau Veritas ADT now can perform PV Inverter, Grid Connection and several Safety testing services. In addition, we are in the minority among Global Labs to provide complete services such as Safety, EMC and Grid protection to the Europe and Australia markets.
