

## Notice: WiMAX Forum Certification License Fee Update

On 11 May 2010, WiMAX Forum is announcing an update to its Certification License Fee structure, effective immediately.

For any product that is not an Embedded\*<sup>1</sup> Computer Product, the fee structure is:

- Pay a US\$10,000 upfront fee

For an Embedded\* Computer Product, two options are available:

- Pay a US\$10,000 upfront fee, or
- Pay a US\$0.25/unit fee, without cap\*<sup>2</sup>, reported and paid quarterly, on all Embedded Computer Products that a vendor manufactures

For a Product shifted its brand name to another company

- Pay a US \$500 upfront fee

\*<sup>1</sup> An Embedded Computer Product is a desktop, notebook, netbook or UMPC computing device containing a WiMAX module.

\*<sup>2</sup> Without cap means no cap (上限) for a MS products if the vendors choose to use US\$0.25/unit method.

### Bureau Veritas ADT WiMAX Services Scope

Type	Standard	Major Service Scope
Regulatory	CE-EU FCC-USA IC-Canada NCC-Taiwan Worldwide test & Certification	Safety (granted as CBTL) EMC (granted as CBTL) RF SAR Telecom
WiMAX Forum	IEEE802.16 -2004 IEEE802.16e -2005	PCT (Protocol Conformance Test) NCT (Network Conformance Test) RCT (Radio Conformance Test) RRT (Radio Requirement Test) RPT (Radiated Performance Test) IOT/MIOT (Interoperability Test) Operator IOT & Open Retail (Continual construction)
M-Taiwan	IEEE 802.16e -2005	RCT, PCT and IOT (basic network access and capability for catching enough bandwidth)
